Add Delicious
buttons to your
toolbar -optional.

Step 4:
Add links.

Step 5:
Tag and organize.

Kim W. Milner
Associate Professor
Indian River State
College

kmilner@irsc.edu

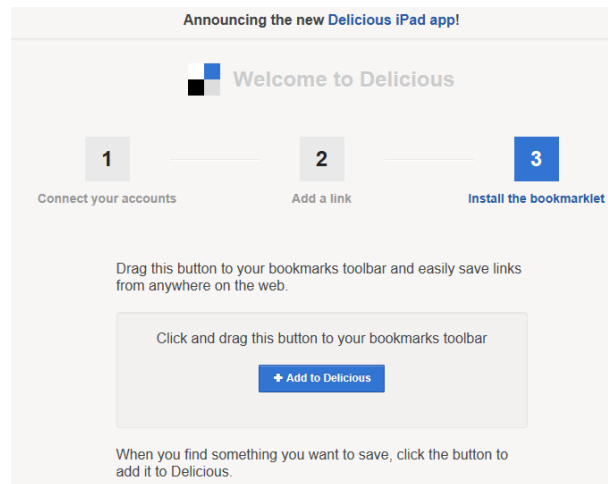

Step 1: Go to delicious/kmilner to access my Delicious links and become familiar with Delicious, then go to delicious.com and click on Create an account to join

Step 2: Once you have your account, you can connect to Facebook and Twitter, and begin to add links.

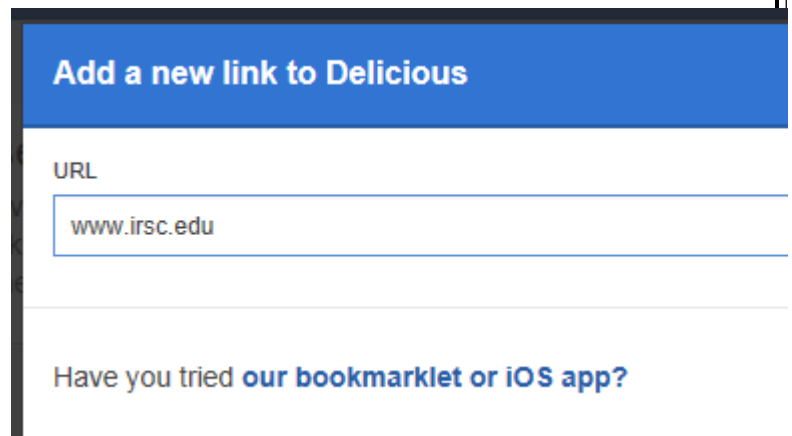

Delicious - continued

Step 3: Add bookmarklet buttons to your toolbar.

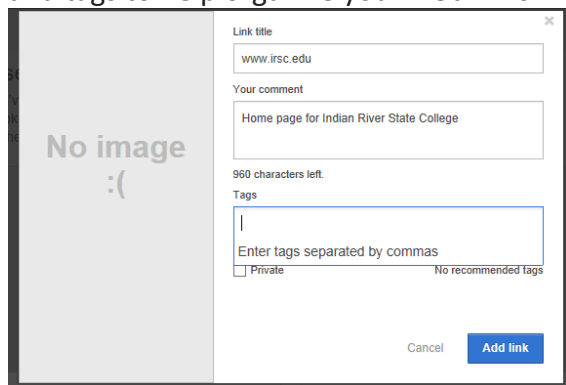

You can add the Delicious buttons to your toolbar to make it easier to add links from your computer. This is optional, and may require you to upgrade to Internet Explorer 9.

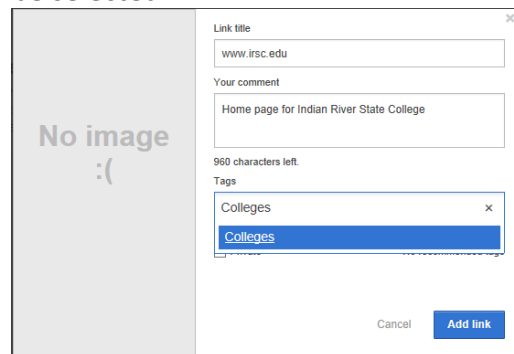

Step 4: Add links: Adding links can be done by logging in to Delicious, clicking on the Add Link button, and pasting a copied URL into the block.

Step 5: Comments. You can also add comments and tags to help organize your web links.

Step 6: Tags. Tags must be entered, then clicked on to be selected.

Once the tag is set up you can easily use it again for other web links. Your Delicious links can be searched by tags. For example, you can view my math links by going to delicious.com/kmilner/math.
